

Spencer Mitchell

Currently a CS student at Oregon State University and Jr. Developer at SED Quaere. My main language proficiency is Python, followed by C/C++, Scheme, and JavaScript. A pdf version of this page can be found [here](#)

Employment History

SED Quaere

Jr. Software Developer

July 2016 - Present

- Make full stack web applications using Flask, uWSGI, and NGINX, that allow users to interact with the file system and track customers and machine parts.
- Write Python scripts on an as needed basis.

Dartmouth-Hitchcock

Lab Technician

September 2015 - June 2016

- Processed hospital samples for appropriate tests.
- Provided support for doctors and nurses regarding proper sample handling and collection.

City of Pomona

Community Services Specialist II

February 2014 - June 2015

- Supervised four after school recreation sites.
- Created programming that was implemented across all recreation sites in Pomona with a focus on physical activities.

University of California, San Diego

Research Assistant

July 2012 - June 2013

- Assisted senior scientists with research experiments on nuclear pore proteins and their configuration during mitosis using western blotting, immunoprecipitations, immunofluorescence, and cell culture.

Personal Projects

Cuttle

A Python ORM that creates relational databases and manipulates tables. It's goal is to be easy to use and extendable by allowing users to write custom methods on the user defined subclasses that represent the database tables.
